AZ CORP COMMISSION
DOCKET CONTROL

Jon Ralston

Tucson, AZ 85745-3805

Dear Chairman Pierce and members of the Commission,

Arizona Corporation Commission
1200 W Washington Street
Phoenix, Arizona 85007

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

I am a TEP customer, and I am writing you today to ask that you please allow TEP's energy efficiency implementation plan to move forward. I am willing to pay more each month for energy efficiency that will ultimately lower my bill in the long run. Energy efficiency is the low hanging fruit when it comes to saving money on energy and lowering carbon emissions. I was planning on having an energy audit soon so that I can begin putting together a plan on how to reduce my energy consumption when I heard that TEP's program was under seige. Please allow this program to continue.

Sincerely,
Jon Ralston

Arizona Corporation Commission

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

I am a TEP customer and have taken advantage of their energy efficient policies since buying my home. I have received rebates that have allowed me to put in new, double paned windows, a solar hot water system, and numerous other smaller improvements.

Please help keep TEP's Energy Efficiency Implementation Plan moving forward to help keep energy costs down for residents, lower carbon emissions, and help secure our national energy security.

Sincerely,
Aaron Farber

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

This program must continue for the good of the environment. i installed
a solar hot water heater and wish everyone would use solar more.

Sincerely,
Gerald Karches

Phoenix, Arizona 85007

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

I a TEP customer and want to encourage increasing energy efficiency for everyone. I have 3 sets of solar panels on our house which generate the vast majority of our electrical usage. We need to reduce burning coal and natural gas, not only because of its environmental impact, but also to reduce our dependency upon foreign imports of fossil fuels.

Sincerely,
Victor Ong

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

As a TEP user, I urge the Commission to do whatever it can to promote energy efficiency. If we don't begin conserving and viewing global warming as man-made catastrophe, there will be no world for our grandchildren to inherit.

Sincerely,
Steward LaCasce

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

It is imperative that we move to renewable
energy.

We need to take a longer view and not deplete the earth for future
generations
Action is NOW

Sincerely,
Edna Silva

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

Energy Efficiency will help decrease the demand on the grid, support the successes of solar installations and promote jobs and businesses in EE work in our communities.

Please continue the support of your excellent EE standard in Arizona.

Sincerely,
Barbara Warren

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

I am a long time TEP customer. I am especially interested in energy efficiency not only because it lowers my bill but gives me cleaner air to breathe. Energy efficiency is by far the cheapest source of energy and it creates more jobs.

Sincerely,
Roy Emrick

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

There is no reason not to encourage an Energy Efficiency plan. Our electric rates are rising and will undoubtedly continue to do so, with efforts to move away from polluting sources. We urge you to consider the motives of the opponents of this plan.

Sincerely,
Schuyler Hilts M.D.

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

Please support TEP's energy efficiency programs. This not only helps our environment which we will be passing on to our children and grandchildren's generations, but it helps those struggling in these difficult economic times to reduce their energy costs.

I realize that budget cuts are necessary but energy efficiency programs are vital to the future of the southwest. Efforts should be made to increase job markets in alternative energy development.

Sincerely,
Kathy Stone

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

TEP's energy efficiency plan is a move forward in ultimately reducing everyone's energy bills. It is definitely worth paying a little more each month now to accomplish this eventual reduction, as well as the accompanying economic benefits and job opportunities for the future. Alternative energy is the ONLY way forward! We have been squandering the enormous wealth of sunlight we have here on a daily basis. It is past time to take advantage of this!

Sincerely,
Lee Stanfield

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

Arizona desperately needs your help! We have so much potential to be a solar state and move toward energy self sufficiency as opposed to having to buy and import coal for our energy needs. As homeowners and taxpayers we can do our part but as commissioners, you can set the guidelines and make so much happen.

I beg each of you commissioners to please do your part to move the TEP energy efficiency implementation plan into a viable on-going position.

Thanks so much for all you do for our sunny state!

Sincerely,
Katya Peterson

Jul 26, 2012

Dear Chairman Pierce and members of the Commission,

Arizona Corporation Commission
1200 W Washington Street
Phoenix, Arizona 85007

Re: Supportive consumer comments on TEP's Energy Efficiency Implementation Plan - E-01933A-11-0055

Energy efficiency will lower our use of kW, thereby reducing our electric bills. The neighborhoods around the coal burning plant will have lower incidences of childhood asthma and lower medical costs to treat childhood asthma.

Sincerely,
Deborah Campion
